

# Consumer Care

## Product Selection Guide

# Consumer Care

## Actives

- Actives for a wide range of applications including:
  - Anti-ageing
  - Skin lightening
  - Energising
  - Firming
  - Hair growth
  - Moisturising
- Marine Extracts
- Sun Care Dispersions
  - Titanium Dioxide
  - Zinc Oxide Inorganics
- Vitamins

## Cleaning Products & Miscellaneous

- A wide range of fine chemicals for your laboratory needs
- Acetic Acid
- Ammonia
- Ascorbic Acid
- Citric Acid & Derivatives
- Hydrogen Peroxide
- Lactic Acid
- Malic Acid
- Peracetic Acid
- Potassium Hydroxide
- Sodium Hydroxide
- Sodium Hypochlorite
- Sodium Perborate
- Sodium Percarbonate
- Tartaric Acid
- Other products on application

## Emollient Esters & Skin Adjuvants

- A wide range of Croda products (>60 types)
- Dimethyl Isosorbide
- Squalane

## Hair Care Colours & Ingredients

- Additives including:
  - Fixatives
  - Preservatives
  - Sequestering Agents
  - UV Absorbers
- Permanents
  - Bases
  - Coupling Agents
- PVPP & PVP Hair Conditioners
- Semi-permanent Hair Dyes including:
  - Arianor
  - Covariane
- Temporary Colours
  - Coated Pigments
  - Uncoated Pigments

## Lanolin & Derivatives

- Acetylated Lanolin
- Ethoxylated Lanolin
- Lanolin Alcohols
- Lanolin Esters
- Medical Grade Lanolins including liquids

## Odour Neutraliser

- Forestall
- Fragrances
- See Cleaning Products

## Rheology Modifiers

- Anionic Modifiers
- Cationic Modifiers
- Gums including:
  - Acacia
  - Chicory
  - Guar
  - Silicone
  - Xanthan
- Liquid Thickeners for Surfactant Systems
- Oil Thickeners based on Mica & Pine Extracts
- Optasense Carbomers
- Triethanolamine (pH adjustment)

## Skin & Colour Cosmetics

- Colour Dispersions (various types of Solvent Carriers)
- D&C Colours
- FD&C Colours
- Kaolin
- Micas (Glitter)
- Natural Plant Extract Colours
- Pigments (coated & uncoated, water & oil soluble):
  - Iron Oxides
  - Titanium Dioxide
  - Ultramarine Dioxide
- Talc
- Texturing Agents, such as:
  - Beads
  - Film Formers
- Very High Purity Pigments

## Solvents

- Acetone
- Glycerine
- Ethanol Alcohol (100%, 95% & others with or without Denaturant)
- Ethyl Acetate
- Propanol

Chem-Supply provides a comprehensive range of raw materials, cosmetic actives, solvents, colours and laboratory analytical reagents covering many cosmetic, pharmaceutical, homecare (I&I) and medical applications.

Our quality product range is made up of leading brands we have exclusive distribution agreements with, like Croda & Sensient, as well as our own trusted Australian brand.

Please see overleaf for product orders and enquiries.

## Extracts

- Botanical & Mineral Extracts created by various extraction techniques

## Flavours

- Water & oil-soluble
- Natural & synthetic

## Fragrances

- Natural Fragrances (no Solvent or Preservatives) in:
  - Ecocert
  - Fairtrade
- Synthetic Fragrances (allergen-free)
- Synthetic Fragrances (major brand offsets)

## Oils

- Castor Oil
- Ethoxylated Oils
- Fixed Oils & Waxes, such as:
  - Almond
  - Exotics
  - Olive
  - Peanut
  - Also available in Pharmaceutical Grades
- Omega-3 Fatty Acids
- Paraffin Oils
- Seatons Essential Oils – Veritess range
- Sustainable Palm Oil Derivatives

## Preservatives / Sequestering Agents

- Benzoic Acid
- Benzyl Alcohol
- EDTA
- Paraben Blends
- Phenoxyethanol
- Potassium Sorbate
- Sodium Benzoate
- Sodium Metabisulfite

## Protein Derivatives

- Cellulose Derivatives
- Collagen Derivatives
- Egg Derivatives
- Elastin Derivatives
- Honey Derivatives
- Hydrolysed Wheat Protein Derivatives
- Keratin Derivatives
- Milk Derivatives
- Silk Derivatives
- Soya Protein Derivatives
- Wheat Amino Acids & Derivatives

## Surfactants / Emulsifiers / Detergent / Conditioners etc.

### Amphoteric

- Cocoamidopropyl Betaine (CAPB)
- Cocoamidopropyl Hydroxysultaine

### Anionic

- Alkyl Polyglucosides (APG)
- Phosphate Esters
- Sodium Alkyl Sarcosinates
- Sodium Lauryl (Ether) Sulfate
- Sodium Methyl Cocoyl Taurate

### Cationic

- Behentrimonium Methosulfate & Blends (B TMS)
- Various Quaternised Lipids

### Fatty Acids, Fatty Alcohols

### Humectants

### Non-ionic

- Ethoxylated Alcohols (Brij)
- Ethoxylated Esters of Fatty Acids (Myrij)
- Ethoxylated Glyceryl Esters
- PEG / PPG
- Polyol Esters
- Polysorbates
- Silicones & Silicone Emulsions
- Solubilisant LRI
- Sorbitan Esters
- Sucrose Stearates

### Polymeric Surfactants

## Waxes (synthetic & natural)

- Paraffin Waxes
- Structuring Waxes
