Winemaking

Experience. Better Ingredients.

Your craft, our chemistry — from grape to glass

Winemakers work hard every day to ensure that their products are of the highest quality. That's why professionals like you rely on us as a key ingredient to craft your latest vintage.

In addition to manufacturing our own winemaking products in our Australian production facilities and importing from amongst the best and most reputable brands in the world, we also partner with our customers to share our technical expertise and experience.

It's a responsive and flexible approach that means you can ensure your latest vintage maximises its potential.

With CSA Ingredients' products, you'll be able to make the wines consumers know you for — consistently and reliably.

Our ability to distribute winemaking ingredients is strengthened by production that meets the high standards of ISO quality requirements.

We manufacture and pack food-grade products in our HACCP approved facility here in Australia — under a quality management system certified to ISO9001 and ISO22000.

Wine industry experience

Our knowledge and experience working with winemakers ensures we understand the importance of being responsive and reliable — when and where you need us.

Our products

CSA Ingredients supplies an extensive range of quality products for the winemaking process.

Tannins / Polysaccharides

Fermentation
Maturation
Finishing

Yeast

Mycoferm Range
Collezione Premium Range

Enzymes - Everzyme Range

Pre-crush
Crusher
Flotation
Colour Extraction
Must Clarification
Membrane Filter Cleaning

Nutrients

DAP
Yeast Nutrient
Rehydration Nutrient
Secondary / Stuck ferments

Malolactic Cultures

Extremo IT 06
- Lower temperatures
Extremo IT 14
- Difficult ferment & high alcohols
Extremo X03
- High pH early drinking wines
Malo Nutrient

Fining Agents

PVPP
Bentonite
Skim Milk Powder
Potassium Caseinate
Egg White Powder
Carbon - Everdec W98
Deobrett (Adsorbs volatile phenolics)

Allergen Free - Fining Agents

Everclar (Potassium Caseinate substitute)
Everclar Alpha (Gelatin substitute - Flotation)
Everclar Beta (Oxidative wine curative)
Everclar Delta (Egg white substitute)
Everclar Gamma (Prevents light strike)
Eversol (Use in conjunction with Gelatine)

Acids

Tartaric Acid L+ Granular
Tartaric Acid L+ Liquid 50%
Tartaric Acid Synthetic Granular
Tartaric Acid Synthetic Liquid 50%
Ascorbic Acid
Lactic Acid 88% USP
Malic Acid
Citric Acid - Dry & 50% Solution

Stabilisers

Cream of Tartar
Cristal Speed (Alternative to COT)
Arabic Enol (Gum Arabic)
Evercell 05 - CMC

Wine Chemicals

Calcium Carbonate
Potassium Bicarbonate
Potassium Carbonate
Potassium Sorbate
Copper Sulphate
D Glucose Monohydrate
Hydrogen Peroxide 35% & 50%
Potassium Hydroxide 48 %
Kupzit (Mercaptin Remover)
Potassium Metabisulphite
Sterisol 600 (Ammonium Bisulfite Liquid)
Soda Ash
Sodium Hydroxide 50%
Sodium Hypochlorite 8-12.5%
Sodium Benzoate

Colours & Flavours

Enocolor EV12 Grape Skin Extract
Natural Colours
Natural Flavour Extracts

Cleaning Products

Wine Tank Cleaner (WTC) 2000
Formula C181
5% Peracetic Acid (Proxitane)
Caustic Pearl
Liquid Caustic 46-50% solution
Sodium Percarbonate

Refrigeration

Ethanol 95% Undenatured BP
Propylene Glycol
Alcool LF
