

# Safety Data Sheet EOSIN WESTMEAD Mod.

SDS no. 83T8TU4A • Version 1.0 • Date of issue: 2024-11-03

#### **SECTION 1: Identification**

#### **GHS Product identifier**

Product name EOSIN WESTMEAD Mod.

Product number AEYWEST

Recommended use of the chemical and restrictions on use

Laboratory reagent.

Supplier's details

Name ChemSupply Australia Pty Ltd

Address 38-50 Bedford Street

5013 Gillman South Australia

Australia

Telephone 08 8440 2000

email www.chemsupply.com.au

**National contact** 

Name Australian Biostain Pty Ltd Address 16 Shipwright Road

5016 Largs North SA

Australia

**Emergency phone number** 

CHEMCALL 1800 127 406 (Australia) / +64-4-917-9888 (International)

### SECTION 2: Hazard identification

## **General hazard statement**

Not classified as dangerous goods according to the Australian Dangerous Goods Code (ADG).

Classified as non-Hazardous according to the Globally Harmonised System of classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

#### Classification of the substance or mixture

## GHS classification in accordance with: UN GHS revision 7

Not a hazardous substance or mixture.

# Safety Data Sheet EOSIN WESTMEAD Mod.

## GHS label elements, including precautionary statements

Not a hazardous substance or mixture.

#### Other hazards which do not result in classification

Protocols in which this material/reagent is used may greatly influence Risks/Hazards.; Even though a Hazard or Risk is not identified, this does not exclude that an effect may or can occur.

# **SECTION 3: Composition/information on ingredients**

#### **Mixtures**

Other components either not classified as Hazardous under the GHS, or below cut-off concentrations to be classified as Hazardous.

#### **Hazardous components**

nazardous components		
Component	CAS no.	Concentration
EOSIN (EC no.: 239-138-3)	17372-87-1	< 0.5 % (weight)
CLASSIFICATIONS: Serious eye damage/eye irritation, Cat. 2A. HAZARDS: H319 - Causes serious eye irritation.		
Ethanol (EC no.: 200-578-6; Index no.: 603-002-00-5)	64-17-5	< 0.1 % (weight)_
CLASSIFICATIONS: Flammable liquids, Cat. 2; Serious eye damage/eye irritation, Cat. 2A. HAZARDS: H225 - Highly flammable liquid and vapor; H319 - Causes		
serious eye irritation.		

### **SECTION 4: First-aid measures**

#### **Description of necessary first-aid measures**

General advice	First Aid Facilities: Maintain eyewash fountain in work area.
If inhaled	If inhaled, remove from contaminated area to fresh air immediately. Apply artificial respiration if not breathing. If breathing is difficult, give oxygen. Get medical aid if cough or other symptoms appear.
In case of skin contact	Rinse with plenty of water. Get medical attention if irritation develops and persists.
In case of eye contact	If contact with the eye(s) occurs, wash with copious amounts of water for approximately 15 minutes holding eyelid(s) open. Take care not to rinse contaminated water into the non-affected eye. If persistent irritation occurs, obtain medical attention.

Rinse mouth thoroughly with water immediately, repeat until all traces of product have been removed. DO NOT INDUCE VOMITING. Seek medical advice if effects persist.

#### Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

#### Indication of immediate medical attention and special treatment needed, if necessary

For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.

## **SECTION 5: Fire-fighting measures**

#### Suitable extinguishing media

If swallowed

Use fire extinguishing media appropriate for surrounding environment. Use water spray, dry chemical, carbon dioxide, or appropriate foam. This material is substantially water.

## Specific hazards arising from the chemical

# Safety Data Sheet EOSIN WESTMEAD Mod.

SDS no. 83T8TU4A • Version 1.0 • Date of issue: 2024-11-03

Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness.

Temperature and combustion of material in vicinity may cause formation of toxic fumes.

#### Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

### **SECTION 6: Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures

Ensure that all handling is carried out in an area of good ventilation, Certified fume cupboards are recommended. Wear protective eyewear, nitrile gloves and apron.

In the event of spill confined to fume cupboard, contain spill with paper towel or similar absorbent material, collect into biohazard bag and seal for disposal with relevant authority. For spills outside of fume cupboard, contain spread of spill with paper towel, sawdust or vermiculite, collect into biohazard bags, seal and dispose though relevant authority; clean up area with cold (do not use hot water) soapy water.

Wear protective clothing specified for normal operations (see Section 8)

## Methods and materials for containment and cleaning up

Absorb or contain liquid with sand, earth or spill control material. Shovel up using non sparking tools and place in a labelled, sealable container for subsequent safe disposal. Put leaking containers in a labelled drum or overdrum.

## **SECTION 7: Handling and storage**

#### **Precautions for safe handling**

Wear Safety glasses, gloves and protective apron.

Work in an area of good ventilation, an approved fume cupboard is preferred.

No eating or drinking in workplace, wash hands whenever leaving work area.

#### Conditions for safe storage, including any incompatibilities

Store in a cool, well ventilated area, out of direct sunlight. Keep containers closed when not in use. Store in orginal container.

### **SECTION 8: Exposure controls/personal protection**

#### **Appropriate engineering controls**

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

#### Individual protection measures, such as personal protective equipment (PPE)

## **Eye/face protection**

The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.

#### Skin protection

Hand Protection: Ensure hand protection complies with AS 2161, Occupational protective gloves - Selection, use and maintenance.

#### **Body protection**

Footwear: Safety boots in industrial situations is advisory, foot protection should comply with AS 2210, Occupational protective footwear - Guide to selection, care and use.

Body Protection: Clean clothing or protective clothing should be worn, preferably with and apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.

#### **Respiratory protection**

SDS no. 83T8TU4A • Version 1.0 • Date of issue: 2024-11-03

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/ mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/ NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

## **SECTION 9: Physical and chemical properties**

#### Basic physical and chemical properties

Physical state Appearance Color

Odor threshold

Melting point/freezing point

Boiling point or initial boiling point and boiling range

Flammability

Odor

Lower and upper explosion limit/flammability limit

Flash point

Explosive properties
Auto-ignition temperature
Decomposition temperature
Oxidizing properties

Ha

Kinematic viscosity

Solubility
Partition coefficient n-octanol/water (log value)

Vapor pressure Evaporation rate

Density and/or relative density Relative vapor density Particle characteristics

Supplemental information regarding physical hazard classes

No data available.

**Further safety characteristics (supplemental)** 

No data available.

**SECTION 10: Stability and reactivity** 

Reactivity

Stable under normal conditions of storage and handling.

**Chemical stability** 

Stable under recommended storage conditions.

Possibility of hazardous reactions

Hazardous Polymerization: Will not occur.

**Conditions to avoid** 

Temperature extremes and direct sunlight.

**Incompatible materials** 

Strong oxidisers, metals.

Liquid Red liquid.

Faint odour of thymol.
No data available.
No data available.
No data available.
Not flammable
No data available.
No data available.
No data available.
No data available.

No data available.

No data available. No data available. No data available. No data available.

Solubility in Water: Soluble in all proportions.

No data available. No data available. No data available. No data available. No data available.

## **Hazardous decomposition products**

In the event of fire: see section 5

# **SECTION 11: Toxicological information**

#### Information on toxicological effects

#### **Acute toxicity**

Not classified based on available information.

#### Skin corrosion/irritation

Mild skin irritation may occur.

## Serious eye damage/irritation

May be irritating to the eyes.

#### Respiratory or skin sensitization

No data available

#### **Germ cell mutagenicity**

Not classified based on available information.

#### Carcinogenicity

Not classified based on available information.

#### Reproductive toxicity

Not classified based on available information.

## Specific target organ toxicity (STOT) - single exposure

Not classified based on available information.

#### Specific target organ toxicity (STOT) - repeated exposure

Not classified based on available information.

## **Aspiration hazard**

Not classified based on available information.

## **SECTION 12: Ecological information**

# **SECTION 13: Disposal considerations**

#### **Disposal methods**

### **Product disposal**

Waste material must be disposed of in accordance with the national and local regulations. Leave chemicals in original containers.

## Other disposal recommendations

Do not discharge this material into waterways, drains and sewers.

# **SECTION 14: Transport information**

### **ADG (Road and Rail)**

Not dangerous goods

SDS no. 83T8TU4A • Version 1.0 • Date of issue: 2024-11-03

#### **IMDG**

Not dangerous goods

IATA

Not dangerous goods

# **SECTION 15: Regulatory information**

Safety, health and environmental regulations specific for the product in question

Australia SUSMP
Poison Schedule: NS

## **SECTION 16: Other information**

#### Further information/disclaimer

ChemSupply Australia Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon ChemSupply Australia Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of ChemSupply Australia Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

#### **Preparation information**

All information provided in this data sheet or by our technical representatives is compiled from the best knowledge available to us. However, since data, safety standards and government regulations are subject to change and the conditions of handling and use, or misuse, are beyond our control, we make no warranty either expressed or implied, with respect to the completeness or accuracy to the information contained herein. ChemSupply Australia Pty Ltd accepts no responsibility whatsoever for its accuracy or for any results that may be obtained by customers from using the data and disclaims all liability for reliance on information provided in this data sheet or by our technical representatives.
